

SION NOBEL, M.D. STOPPING OPIATE & ALCOHOL ADDICTION IN HOURS

Finally a Medical Assisted Program That Quickly Stops Alcohol and Drug Addiction in a Few Hours

**ASK US ABOUT OUR STEM CELL/PRP PAIN ENDING TREATMENT
INCLUDING AN END TO PAIN PILL ABUSE & ADDICTION
WE ARE THE ONLY FACILITY IN THE COUNTRY OFFERING THIS LIFESAVING
PROGRAM**

Sion Nobel, M.D. an Addiction and Stem Cell Treatment Specialist is now offering a unique (anonymous) addiction stopping program for individuals suffering from Opiate and/or Alcohol abuse. His program in partnership with CereCare's Center of Excellence is available immediately in Sherman Oaks, California.

Dr. Nobel offers a complete Out-Patient Detox/Treatment/Aftercare program that starts with a small tablet implanted in the fatty tissue at the base of your belly that ends cravings. This entire process takes less than 10 minutes and is complete in Dr. Nobel's office. Once the tablet is implanted most patients will find **relief from Cravings (the cause of Addiction) in a few hours**. Yes, you heard correctly, Sion Nobel, M.D. can end your desire to use a list of drugs and alcohol in only a few hours. This medical program began in Australia where today there are over 10,000 people who have successfully used this implant to stop their addiction. **NOW YOU CAN TOO.**

The steps to this addiction stopping miracle start with a **FREE** Evaluation at Dr. Nobel's office, Accelerated Treatment Systems. You will meet with Dr. Noble and the programs executive director to insure you are appropriate for this program. Once approved you will meet with our intake specialist who will gather all of your pertinent information, from there the Executive Director of the program (27 years sober) will spend time going over your history and get a clear understanding of what you have been doing, how it has effected your personal and business life and what you want to have happen after you complete the implant process.

Some patients may require minimal detox prior to the implant, Dr. Nobel has designed a detox process delivered in his office but still Out-Patient. This program includes comfort medications to ease the detox pain and symptoms, plus a customized vitamin and supplement IV infusion to replenish what your body needs for optimal performance. This daily routine is followed by a meeting with our licensed counselor to ensure we are meeting all of your needs.

Once you complete Detox (if required) Dr. Nobel will complete the implant in 10 minutes, your cravings will stop, and you can return to work, school or home that same day. NO twenty-eight days stay at a treatment facility or hospital for \$15,000 plus. No embarrassing conversation
